

# Aprilaire Air Cleaner

## An air cleaner removes pollutants throughout your home

If someone in your home suffers from [allergies](#) or [asthma](#), you already know the negative impact that polluted air can have. No matter how clean you keep your home, it's likely full of harmful particles that can exacerbate allergies and asthma—and increase the likelihood of [colds and flu](#).

Aprilaire can help you control the purity of the air in your home with a whole-home air cleaner—also known as an air purifier. Unlike standard portable air cleaners, a whole-house air cleaner is installed as part of your home's heating and cooling system in order to effectively remove polluted air not just in one room—but throughout your entire home.

Aprilaire—delivering improved comfort to your home and family

## Indoor Air Pollution is Harming Your Health

The air inside your home could be more harmful to your family than the air outside. In fact, indoor air pollution was recently named by the EPA as one of the top five risks to public health. That's because it's filled with:

- [Mold spores](#)
- [Pet dander](#)
- [Bacteria](#) and
- [Pollen](#)

These can cause health issues, such as:

- [Asthma](#) and
- [Other respiratory problems](#)

*"Poor indoor air quality can cause or contribute to the development of chronic respiratory diseases such as asthma and hypersensitivity pneumonitis. In addition, it can cause headaches, dry eyes, nasal congestion, nausea and fatigue. People who already have respiratory diseases are at greater risk."*

- American Lung Association

Aprilaire provides simple, automatic, yet total control of your indoor air quality.

## An Air Cleaner Can Help

An air cleaner are installed as part of your home's central heating and cooling system, away from living areas. The air in your home runs through our **state-of-the-art filter media**, delivering clean air **throughout your entire home**, silently and efficiently.

Maintenance of our air cleaner is easy and infrequent, requiring attention just once a year. Compare that to a [portable](#) air cleaner that only clean air in a single room and require cleaning every 1-3 months.

## An Aprilaire Air Cleaner Purifies the Air on Your Terms

Unlike an air cleaner that only work when your heating and cooling system is running, Event-Based™ Air Cleaning from Aprilaire lets you call the shots. You control when and how the air cleaner works based on day-to-day events, conditions and activities, such as:

- Allergy season
- Spring cleaning
- Any time there's extra dust in the air

And it all works with a touch of a button.

To see how Event-Based Air Cleaning works — or to learn more about the effects of polluted air inside your home has on your health — watch our [Total Comfort Air Purity video](#).

## Find the Right Air Cleaner For You

Aprilaire offers a variety of [air cleaners](#), each one designed to help homeowners achieve the right level of comfort for their unique needs. Be sure to ask an Aprilaire dealer which solution is right for your home and your family. [Find a dealer](#) near you today.
