UPGRADE YOUR CUSTOMER TO APRILAIRE
MAKE MORE REVENUE, REDUCE INVENTORY, CONVERT CAKEBOX MEDIA TO COLLAPSIBLE, AND OFFER YOUR CUSTOMERS A BETTER PRODUCT.
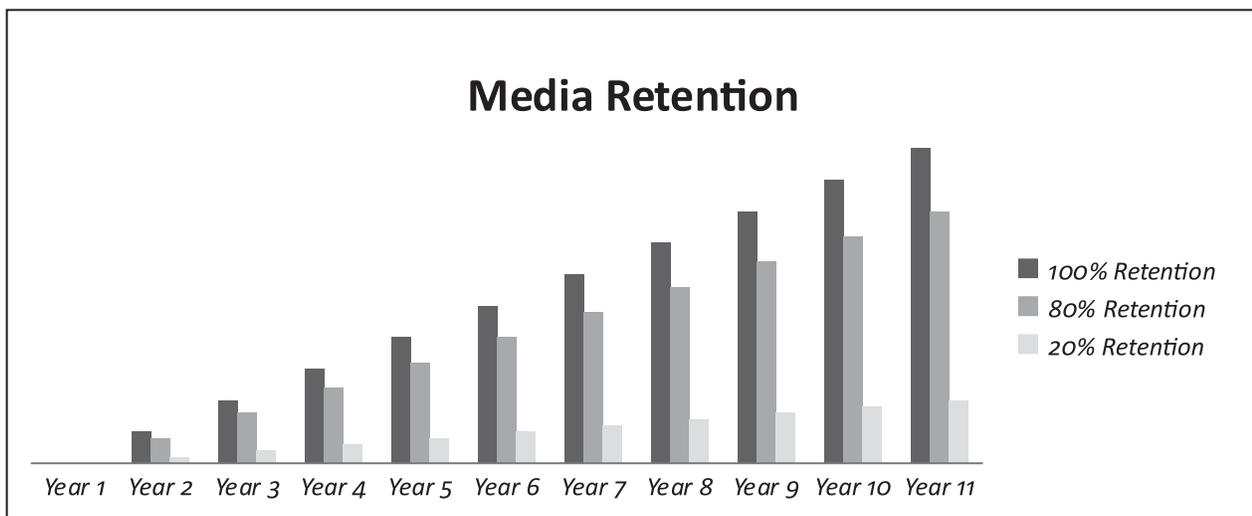

Increased Revenue – Patented media keeps consumers from purchasing retail products – "Beat the Big Box!"

Consolidate Inventory – Servicing all the various brand of air cleaners requires media from multiple vendors. Consolidate your inventory to one brand/vendor.

Reduce Damage – Collapsible media is smaller and protected from the damage associated with large, clumsy, cake box designs.

Improve Air Cleaner Performance – Aprilaire's Self Seal™ prevents air bypass which is a common problem with cake box designs.

Air cleaner media is an annuity; treat it like an investment in your business. Why not expect 100% media retention, it's real money. Start today!

Media Retention

Legend:
- 100% Retention
- 80% Retention
- 20% Retention

Year 1, Year 2, Year 3, Year 4, Year 5, Year 6, Year 7, Year 8, Year 9, Year 10, Year 11

If you installed 200 air cleaners per year and sold the media to the consumer for $50. In year 10 at 100% retention you would have $100,000 in revenue, and at 20% retention you would have $20,000. That's $80,000 in revenue handed over to a retail business, why? This kit is one part of what we can offer to grow your service business.

Aprilaire®

ONE FRAME FOR 20"X 25" AND 16"X 25" CAKEBOX SIZES, PART NUMBER 4897.
CHOOSE THE MEDIA THAT WORKS BEST.
