

**With robust diagnostics and universal application, Honeywell's Hot Surface Ignition (HSI) Universal Integrated Furnace Control is the only model you need.** Honeywell offers universal compatibility with a complete set of wiring harnesses to simplify installation. EnviraCOM™-enabled to work with remote monitoring and diagnostic systems, the Honeywell UIFC features innovative, robust diagnostics that make installation and troubleshooting a breeze. This control is ready for remote services, whether you're replacing old controls or installing new equipment like the VisionPRO™ IAQ, Telephone Access Module or EnviraZONE™. Able to replace

most furnace controls and be applied to most heating and cooling single-stage appliances, Honeywell UIFCs are the only brand you need to stock on your truck. Simplify your inventory with the universal choice — Honeywell Universal Integrated Furnace Controls.

# HSI Universal Integrated Furnace Control

Save time and money when you carry Honeywell's UIFC on your service truck. The Universal Integrated Furnace Control comes with a complete set of wiring harnesses for Universal compatibility, simplified installation, and field-adjustable timings. Make sure you have the right part, every time, with the UIFC.

## The Universal Choice

Put an end to excessive inventory and searching for the right model on your truck — the keyed wire harnesses allows it to replace nearly all furnace controls and be applied to most heating and cooling single-stage appliances. Simply put, this is the only control you need for residential natural or liquid propane fueled furnaces.

## Built-In EnviraCOM Communications

Honeywell Universal Integrated Furnace Controls are EnviraCOM-enabled, so you can set up local or remote monitoring and diagnostic systems — perfect for selling service contracts. Because all Honeywell UIFCs feature EnviraCOM communications capabilities, you'll have your customers ready for remote services whether you're replacing old controls or installing new equipment like the VisionPRO IAQ, Telephone Access Module (TAM) or EnviraZONE. If a critical alarm occurs, like a rollout switch alarm, the TAM will call out immediately to notify you of the problem and an error message will be displayed on the screen of the VisionPRO IAQ. Stay connected with Honeywell EnviraCOM communications.

## Simplified Installation

While models from other brands have unique wiring terminals requiring a like-for-like replacement, Honeywell's Universal Integrated Furnace Controls come with universal wiring harnesses for universal compatibility, simplified installation and field-adjustable timings. The UIFC also features LED indicators that provide system status,
