#### SAFETY DATA SHEET

#### **SECTION 1 - IDENTIFICATION**

Manufacturer's name and address:

Supplier's name and address:

K-FLEX USA

Refer to Manufacturer

K-FLEX USA 100 Nomaco Dr Youngsville, NC 27596 USA

Telephone No. : (800) 765-6475

Website Address : www.kflexusa.com

Product Identifier : K-FLEX Clad AL Jacketing

Chemical Name : Clad AL Jacketing

Recommended Use : This product is classified as an "article" according to Title 29 of

the Code of Federal Regulations, OSHA Part 1910.1200C.

## SECTION 2 – HAZARD(S) IDENTIFICATION

Hazardous Ingredient : None

# SECTION 3 – COMPOSITION/INFORMATION OF INGREDIENTS

Description : Laminated of the following composition: PETP film, adhesive,

aluminum foil, adhesive, PVC-film with flame retarder

(Antimony trioxide CAS 1309-64-4 < 7%, label R40 S22 S36/37). Form: Solid, flexible. Color: Metallic, gray. Odor: Odorless.

### **SECTION 4 – FIRST-AID MEASURES**

Inhalation : Remove patient from exposure, keep warm and at rest. Use

suitable respiratory protection measures. If breathing is irregular or has stopped, proceed with artificial respiration.

Obtain medical attention.

Skin Contact : When product is hot: Cool affected areas with cold water.

Cover a clean cloth or sterile gauze and call immediately for medical help. Do not try to remove product from skin or remove soiled clothing, as this may cause injured skin tissue to

be torn off.

Eye Contact : This product is an inert solid. In case particles come into the

eye, remove by irrigating with eye wash solution or clean

100 Nomaco Drive Youngsville, NC 27596

water, holding the eyelids apart. Obtain medical attention.

Ingestion : Unlikely route of exposure. First aid normally not necessary.

## **SECTION 5 – FIRE-FIGHTING MEASURES**

Extinguishing Media : Water, CO<sub>2</sub>, Dry Powder, Foam

Special Firefighting Procedures : In the presence of combustion or carbonization gases, any

fire-fighting, rescue, and clearing up activities should be undertaken only with heavy-duty respiratory and eye

protection equipment.

Decomposition Products : Combustion or thermal decomposition will involve toxic and

corrosive vapors: carbon monoxide (CO), hydrochloric acid,

carbon dioxide and other organic compounds.

#### SECTION 6 – ACCIDENTAL RELEASE MEASURES

Personal Precautions : If contact with hot material is possible, wear heat proof

gloves, face shields. If ambient air concentrations exceed 200°

C (392° F) in spite of technical safety measures, further

measures should be taken to extract the fumes. In other cases (where not possible), wear respiratory protection equipment.

Emergency Procedures : None.

## **SECTION 7 – HANDLING AND STORAGE**

Hints for Safe Handling : Avoid contact with naked flames and hot surfaces as irritant

and toxic decomposition products can be formed.

Hints for Fire and Explosion Protection : Prevent overheating of the molten material. Product can be

electro-statically charged, which can lead to an intangible electrical discharge. All production machines must be

grounded correctly.

Hints for Warming : (e.g. when welding) Sufficient ventilation should be provided.

In certain cases, extractor-fans should be installed directly on

the machines.

Storage Recommendations : Store in ambient temperature. Store on dry pallets in

enclosed rooms with solid foundation. Stack loose bales in containers, racks or secure using wedges. Pallets with lying bales must not be stacked. Upright bales can be stacked up to a maximum of 3 high. Stack products in cardboard boxes up to

a maximum height of 5.5 m.

## SECTION 8 – EXPOSURE CONTROLS/PERSONAL PROTECTION

Medical Conditions Aggravated by

Exposure : Not established.

Codes Used : N/A General Health Measures : N/A

Engineering Controls : Local exhaust ventilation is recommended for control of

airborne dust, fumes, and vapors in confined areas.

#### **SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES**

Appearance : Rolls with or without PSA or pre-adhered to elastomeric pipe

and sheet insulation in various sizes with metal cladding.

Color : Metallic, gray.

Odor : Negligible to no odor.

: N/A **Melting Point Boiling Point** : N/A Lower Explosion Limit : N/A **Upper Explosion Limit** : N/A Vapor Density (Air = 1) : N/A Solubility : Insoluble Specific Gravity ( $H_2O = 1$ ) : N/A Flash Point : N/A

#### **SECTION 10 – STABILITY AND REACTIVITY**

Chemical Stability : Stable up to 200° c (392° F)

Incompatibility : N/A

Decomposition Products : Temperatures above 300° C (572° F) lead to the

decomposition of the polymers. Thermal decomposition products are toxic and corrosive: hydrocarbons, carbon dioxide, carbon monoxide, smoke, hydrochloric acid.

Hazardous Reactions : Plants under controlled conditions. Work according to local

and national force directives.

#### **SECTION 11 – TOXICOLOGICAL INFORMATION**

Effects on short- and long-term

Exposure : When used and handled according to specification, the

product does not have any harmful effect to the best of our

knowledge.

#### **SECTION 12 – ECOLOGICAL INFORMATION**

Classified as non-hazardous to waters.

## **SECTION 13 – DISPOSAL CONSIDERATIONS**

Disposal

: Not a hazardous waste. Dispose of in accordance with local, state, and federal regulations.

## **SECTION 14 – TRANSPORT INFORMATION**

Non-hazardous material.

## **SECTION 15 – REGULATORY INFORMATION**

N/A

## **SECTION 16 – OTHER INFORMATION**

Revised January, 2015. The information and recommendations contained herein are based upon data that is accurate and reliable, to the best of K-FLEX USA, LLC knowledge and belief. With respect to information and recommendations, K-FLEX USA, LLC makes no representations or warranties of any kind or nature, expressed or implied.
