

OEM APPROVED

EMKARATE® RL32-3MAF

The New Approved Lubricant for Servicing Copeland Compressors

Working in partnership with Copeland, Uniqema has developed Emkarate RL32-3MAF as the lubricant for replacing Copeland-approved RL22CF and RL32CF in air conditioning and refrigeration applications. It offers optimum *stability, compatibility and reliability.*

Emkarate RL32-3MAF is a new, high performance refrigeration lubricant specifically designed for use in Copeland compressors. It is the lubricant of choice to replace Emkarate RL22CF and RL32CF as well as 22CC, offering the same performance and reliability. The 32-3MAF formulation is a universal lubricant for all Copeland POE applications. It is completely compatible with the other Copeland-approved POE's and it can be mixed with them.
