

Series R

Phenomenal Aire Cold Plasma Generators (CPG) produce an electric field filled with highly charged ions. The ions created within the field act as a natural scrubbing agent for the air passing through the field. Phenomenal Aire cleans the air you breathe naturally and safely. Phenomenal Aire addresses dust, mold, pollen, bacteria, virus, harmful pathogens, smoke, odor and volatile organic compounds (VOCs). Series R CPG technology is ideal for residential HVAC systems with a rating of up to 6,000 CFM

- No Moving Parts
- No Lightbulbs
- Period Inspection
- No Harmful Byproducts such as Ozone
- Easy Installation
- ETL Listed Technology
