SPECIFICATIONS FOR MOLDMISER S MODELS ULTRAVIOLET REPLACEMENT LAMPS

MOLDMISER S MODEL LAMPS

Respicaire ceramic collar lamps fit all Respicaire MoldMiser S series Ultra Violet units as well as a number of competitive models. They are quartz lamps designed for quick retro-fit. The 4 pin bases are common configurations with rounded edges for reliable water tight connection with sure seal sockets. They are effective at reducing airborne and coil microbials via coil & air irradiation. The lamps are rated for 9000 hours.

REPLACEMENT LAMPS SPECIFICATION CHART
