Additional products and accessories

testo 317-3
Ambient CO meter detects the presence of carbon monoxide (CO) in ambient air

Part no. 0632 3173

Compact printer with IRDA technology for 320 and 330-series combustion analyzers

Part no. 0554 0549

testo 316-1
Gas leak detector accurately detects gas leaks in natural gas pipes

Part no. 0632 0316

Compact printer with IRDa technology for the testo 310 combustion analyzer

Part no. 0554 3100

Gas leak probe
For use with the testo 320 or 330. Capable of detecting methane or propane up to 10,000 ppm

Part no. 0632 3330

Ambient CO probe
For use with the testo 320 of 330. Alerts user of CO concentrations to maintain safe air environment

Part no. 0632 3331

Standard smoke / soot pump kit includes scale, filter paper, and lubricant

Part no. 0554 0307

testo 317-1
gas spillage detector detects escaping heating flue gased quickly and reliably

Part no. 0600 9760

Replacement particle filter (10/pkg) Cone filter installed in back of probe to prevent contamination.

Part no. 0554 0040

Spare thermal paper 6 rolls of thermal paper for use in any testo printer

Part no. 0554 0568

Product Comparison

	testo 310 The entry-level model for reliable flue gas analysis.	testo 320 The multi-function instrument for efficient measurements.	testo 330-1 The professional flue gas analyzer for all measurement tasks.	testo 330-2 Flue gas analysis for highest-level requirements.
Fuels	Oil, gas, solid fuels	Oil, gas, solid fuels	Oil, gas, solid fuels	Oil, gas, solid fuels
# of Preset fuels	5	20	20	20
Sensor slots	O_2, CO	O_2, CO	O_2, CO (NO sensor can be installed)	O_2, CO H2-Compensated, (NO sensor can be installed)
CO measuring ranges	0 to 4,000 ppm	0 to 4,000 ppm	0 to 4,000 ppm	CO Auto-Dilution 0 to 30,000 ppm
Long-life CO sensor with 6 year lifespan	–	–	✅	✅
Field Repl. Sensors	–	✅	✅	✅
Differential temp.	–	✅	✅	✅
Draft measurement	✅	✅	✅	✅
Differential pressure measurement	–	✅	✅	✅
Error and sensor diagnosis	✅	✅	✅	✅
Bluetooth/App iOS/Android	–	Android Only	✅	✅
Warranty (O_2 / CO sensors)	2 years	2 years	4 years	4 years
Warranty (instrument / probe)	1 year	1 years	3 years	3 years
Memory	–	500 readings	500,000 measurment reports	500,000 measurment reports

Ordering data

testo 310 **Residential Combustion Analyzer Kit**
includes testo 310 with attached probe, O_2 sensor, and CO sensor; AC power supply; silicon tubing; particle filters (5); pressure plugs (5); certificate of conformity; and case
Order no. 0563 3100
Order no. 0563 3110 incl. printer & 2 rolls of paper

testo 320 **Residential / Commercial Combustion Analyzer Kit**
includes testo 320 with O_2 sensor and CO sensor; AC power supply; 12" flue gas probe, 1/4" dia., w 7 ft. hose; particle filters (10); certificate of conformity; and case
Order no. 0563 3220 70
Order no. 0563 3220 71 incl. printer & 6 rolls of paper

testo 330-1 **Commercial / Industrial Combustion Analyzer Kit**
includes testo 330-1 with O_2 and CO sensors; Li-Ion battery; AC power adapter; 12" flue gas probe, 1/4" dia., w 7 ft. hose; particle filters (10); certificate of conformity; and case
Order no. 0563 3371 70
Order no. 0563 3371 75 incl. printer and 6 rolls paper
**Order no. 400563 3304** incl. NO sensor, printer and 6 rolls paper

testo 330-2 **Commercial / Industrial Combustion Analyzer Kit**
includes testo 330-2 with O_2 and H_2-compensated CO sensor; Li-Ion battery; AC power adapter; 12" flue gas probe, 5/16" dia., w 7 ft. hose; particle filters (10); certificate of conformity; and case
Order no. 0563 3372 71
Order no. 400563 3372 incl. NO sensor

Be sure. **testo**

60 Years Testo

Testo Combustion Analysis

The standard in flue gas/combustion measurement and detection.

www.testo.com/promo

testo 310

Residential combustion analyzer

For testing and troubleshooting of residential furnaces, boilers, hot water heaters, and other combustion appliances.

Residential combustion analyzer

O2, CO, CO_2 (calculated), °F, draft, pressure, efficiency, automatic calculations, printer option and more.

Bright backlit display - Five-line backlit display with two-line readout and easy-to-navigate menu structure.

Fastest startup available - Start testing in only 30 seconds.

Quick exchange probe filter - Protect the instrument's measurement accuracy with replacement filters.

Powerful magnets - Powerful magnets on the 310's housing allow for hands-free operation.

Fixed hose & probe - Always ready for testing, the 310's probe and kink-free hose is attached to the analyzer.

---

testo 310
Residential Combustion Analyzer Kit

Analyzer, probe w/ cone, silicon tubing, extra particulate filters (5), AC power supply (with USB), pressure plugs (5), and calibration certificate and case.

Part no. 0563 3100

Part no. 0563 3110 **includes printer**

---

testo 320

Residential / light commercial combustion analyzer

For frequent testing and troubleshooting of residential and light commercial furnaces, boilers, hot water heaters, and other combustion appliances.

Residential / light commercial combustion analyzer

O_2, CO, CO_2 (calculated), °F, draft, differential pressure, efficiency, automatic calculations, graphic display, memory, Bluetooth (Android only), (optional software, printer, ambient CO probe) and more.

Internal memory - Store up to 500 tests.

Pre-calibrated sensors - Field-replacable sensors that typically last more than three years.

More measurements with optional external probes:
• Ambient CO
• Gas leak
• CO_2

Stock probe includes hardened cam-lock fittings - Provides leak-free operation and greater test confidence.

Combustion App via Bluetooth

Android Only

testo 320
Residential / Commercial Combustion Analyzer Kit

Analyzer, probe w/ cone, extra particulate filters (10), AC power supply (with USB), and calibration certificate and case.

Part no. 0563 3220 70

Part no. 0563 3220 71 **includes printer**

---

testo 330

Commercial / light industrial combustion analyzer

For testing of commercial and industrial boilers, furnaces, and other combustion appliances, (NO sensor optional)

Commercial / light industrial combustion analyzer w/NOx option

O2, CO, CO_2 (calculated), NO sensor (option), LONG-LIFE SENSORS, (range extension with dilution system option), °F, draft, pressure, automatic calculations, graphic display, memory, (optional software, Bluetooth, printer, ambient CO) and more.

Internal memory - Store up to 500,000 readings.

Long-life sensors standard - The longest-life sensors with highest accuracy and reliability are standard. Integrated dilution system available in testo 330-2, which provides range expansion and over-range protection in commercial/industrial testing.

Combustion App via Bluetooth

iOS & Android

testo 330-1 Commercial / Industrial Combustion Analyzer Kit

Analyzer, probe w/ cone, extra particulate filters (10), AC power supply (with USB), and certificate of conformity and case.

Part no. 0563 3371 70

testo 330-2 Commercial / Industrial Combustion Analyzer Kit

Analyzer, probe w/ cone, extra particulate filters (10), AC power supply (with USB), spare battery, certificate of conformity, and case.

Part no. 0563 3372 71
